

Dr. Heinrich Schneider Messtechnik GmbH

First-class measurement technology since 1947

- **Founded in 1947**, Schneider Messtechnik is one of the leading companies in the field of non-contact metrology
- Development, manufacture, assembly, sales and after - sales service of optical and multi-sensor measuring machines - equipment for various industries.
- **3 strategic business divisions:**
 - 1.) Schneider Division
 - 2.) OEM Division
 - 3.) Sport Division

Outstanding quality and innovations

One of the leading manufacturer worldwide of innovative and smart products for optical, tactile and multi-sensor measurement

Board of management: Hans Kallinowsky, Dr. Wolfram Kleuver, Uwe J. Keller, Jörg Schroeder, Oliver Walter, Harmut Schubert

Employees:

90

Number of customers worldwide:

> 1,300

Employees with >10 years company affiliation:

20 %

Customer countries worldwide:

51

Employees with >25 years company affiliation :

10 %

Machine units per year:

approx. 500 Stück

Apprenticeship rate:

approx. 10 %

Customer trainings per year:

approx. 250

Subsidiary domestic:

Dr. Heinrich Schneider, U-Software Systeme GmbH & Co. KG, Bad Kreuznach

Subsidiary overseas:

Qingdao Schneider Messtechnik Trading Co. Ltd., Qingdao - China

WMM Series

Shaft measurement machines

from 100 mm until 2500 mm
measuring length

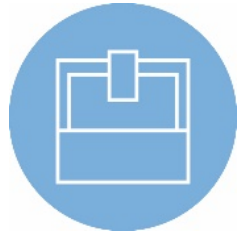

PMS Series

3D multi-sensor measurement machine
in bridge type design

TMM Series

3D coordinate measurement machine
in bridge type design

WM1 Series

Measurement microscope

V-CAD Series

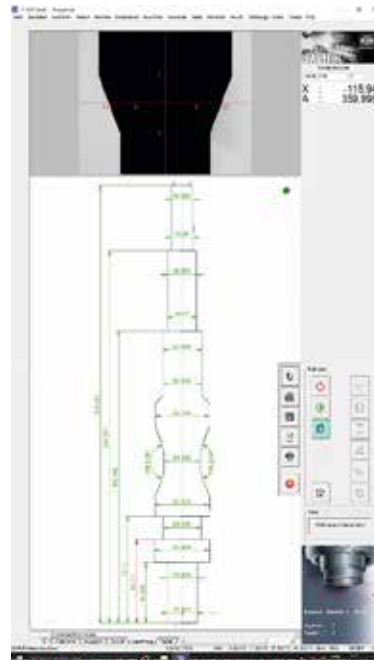

2D optical measurement device

WMB Series

2D optical shaft measurement machine

Profile projector Measurement projector

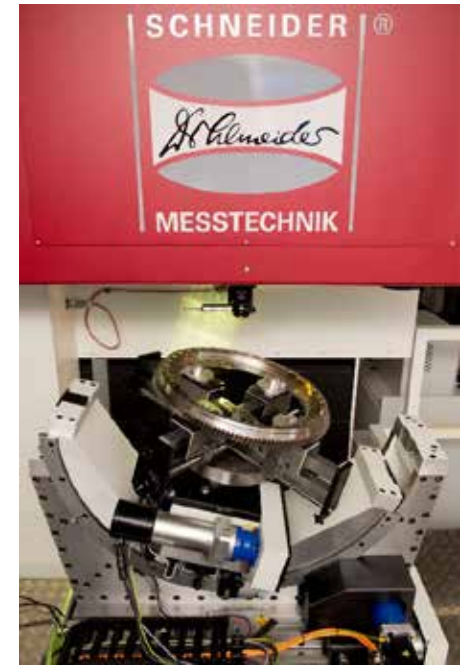

Measurement projector

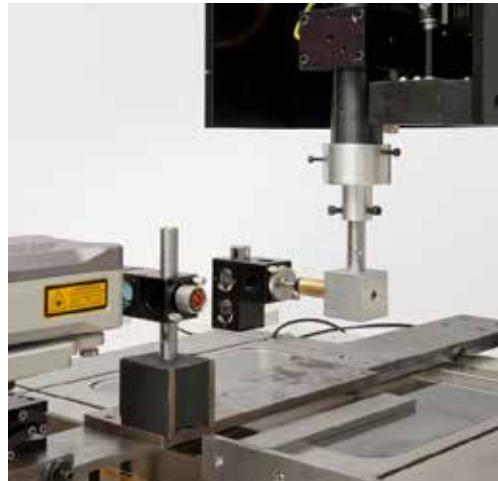

Measurement projector

Tool Presetter STP 500

Precise laser target PLT2

Laser sensoric for outstanding Olympic success

Precise laser target PLT2

Laser sensoric for outstanding Olympic success

Today's ideas are
tomorrow's high-tech
and we measure it!!
